### Summary

Data Analyst with internship experience in SQL, Python, Power BI, Tableau, and Advanced Excel. Experienced in data cleaning, exploratory analysis, KPI reporting, and dashboard development using large transactional datasets.

### Skills

**Programming Languages:** SQL, Python(Pandas , Numpy)

**Data Visualization:** Power BI, Tableau

**Advanced Excel:** Pivot Tables, Power Query, VLOOKUP/XLOOKUP, Formulas, Data Analysis

**Data Techniques:** Data Cleaning, EDA, Data Modelling, KPI Reporting

**Soft Skills:** Analytical Thinking, Stakeholder Communication, Data Storytelling

### Experience

**Data Analyst Intern** [\[Link\]](#)

**Jul 2025 – Jan 2026**

*AI Variant*

- Analyzed, cleaned, and prepared large datasets using SQL, Excel, and Python (Pandas and NumPy), performing validation and exploratory analysis to identify trends and inconsistencies.
- Developed interactive dashboards and reports using Power BI, Tableau, and Excel to track KPIs, performance metrics, and support data-driven decision-making.
- Built and maintained data models and relationships, standardized reporting datasets, and improved workflows to reduce manual data preparation effort.

### Projects

**US Airline Performance Delay Analysis 2015** [\[Github\]](#) — *Python, MySQL, Power BI* **2026**

- Analyzed U.S. airline data to uncover trends and insights related to flight delays, cancellations, and airline performance.
- Performed data cleaning, transformation, and exploratory data analysis (EDA) to prepare the dataset for analysis.
- Used SQL queries to analyze airline performance, flight delays, cancellations, and other key metrics.
- Developed an interactive Power BI dashboard to visualize airline performance and communicate key insights through KPIs and charts.

**Bank Loan Analysis** [\[Github\]](#) — *SQL, Power BI, Excel, Tableau*

**2025**

- Analyzed bank loan data to identify trends in loan amounts, borrower profiles, interest rates, and loan performance.
- Cleaned and transformed data, handled missing values and outliers, and performed SQL-based analysis to derive key business insights.
- Developed interactive dashboards in Excel, Power BI, and Tableau to track KPIs, including loan trends, revolving balances, payment behavior, and loan status.
- Identified high-risk loan segments and repayment patterns across borrower grades, income verification status, home ownership, states, and time periods to support data-driven decision-making.

### Awards & Certifications

- **ExcelR : Data Analyst Program (6 Month Certification)** [\[Link\]](#) : Training in SQL, Python, Excel, Power BI, Tableau, and data analytics.
- **Cisco : Data Analytics Essential Certification** [\[Link\]](#) : Training in data analysis, data visualization, and essential analytics concepts.

### Education

**Bachelor Of Commerce (B.Com)**

**Graduated: 2025**

*S.S.B.N Degree College*

*CGPA: 9.09 / 10*
